

CENTRAL SHENANDOAH HEALTH DISTRICT

WEEKLY COVID-19 UPDATE & CLINIC INFORMATION

NOVEMBER 5, 2021

NEW THIS WEEK!

CSHD IS VACCINATING EVERYONE 5 AND UP!

The CDC recommends that children and adolescents age 5 and older get a COVID-19 vaccine!

- The Pfizer COVID-19 vaccine is authorized for children and adolescents age 5 and up, as a 2-dose series taken 3 weeks apart.
- The dose for children age 5-11 is one-third of the dosage of the vaccine for older adolescents and adults.

Vaccination is the best way to protect children age 5 and older from COVID-19.

Vaccines are available at CSHD clinics, local pharmacies, some pediatrician offices, school based clinics, and more!

Visit vaccinate.virginia.gov or call 877-VAX-IN-VA for assistance in finding a clinic or scheduling vaccination.

VACCINATE VIRGINIA

Yes! It's here!

Get your kids ages 5-11 vaccinated against COVID-19 today.

**KEEP MOVING FORWARD,
CENTRAL SHENANDOAH!**

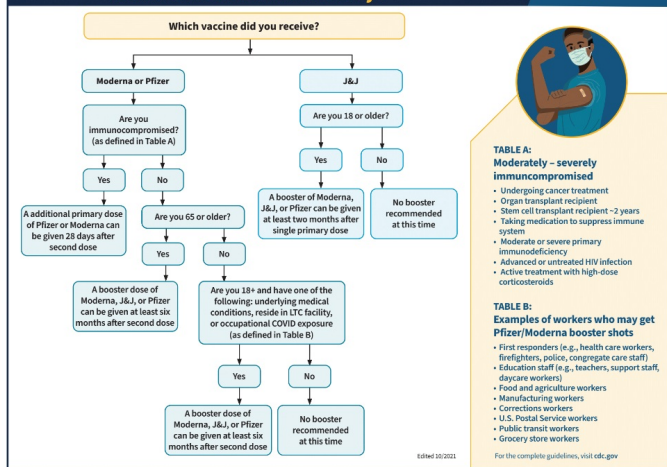

Find your child a COVID-19 Vaccine!

CSHD IS OFFERING PFIZER, MODERNA, JOHNSON & JOHNSON COVID-19 VACCINE BOOSTERS TO ALL ELIGIBLE PERSONS

For individuals who received a **Pfizer-BioNTech** or **Moderna** COVID-19 vaccine, the following groups are eligible for a booster shot at 6 months or more after their initial series:

- 65 years and older
- Age 18+ who live in [long-term care settings](#)
- Age 18+ who have [underlying medical conditions](#)

Do I need a COVID-19 additional primary dose or booster vaccine today?

- Age 18+ who work or live in [high-risk settings](#)

For people who got the **Johnson & Johnson** COVID-19 vaccine, booster shots are also recommended for those who are 18 and older and who were vaccinated two or more months ago.

The FDA and CDC also authorized mixing and matching different vaccines from the initial series. Read more [here](#).

Looking for an opportunity to get your COVID-19 vaccine or booster shot this week?

Monday, November 8, 12:00 to 6:00 p.m.

College Square (Old Peeble's/Gordmans)

THE FLU SHOT: WHAT YOU NEED TO KNOW

#FIGHT FLU

What: Flu Shots (also known as Influenza Vaccines) are the best way to protect yourself and your loved ones from the flu, which is a potentially serious disease that can lead to hospitalization and sometimes even death.

Who: All people 6 months and older (with rare exceptions).

When: People should get a flu shot every year. Ideally, everyone should be vaccinated by the end of October to protect themselves during the flu season. It is okay to get a flu shot after October.

Why: When more people are vaccinated against the flu, the flu will have less of an opportunity to spread in a community. This means less people will need medical care for flu illness and our already overwhelmed healthcare system can focus on helping people with other health problems, such as Covid-19.

Flu Shot & COVID-19 Vaccine: You can get a flu shot and a COVID-19 vaccine on the same day, there are no timing requirements between getting a flu shot and a Covid-19 vaccine.

Where: You can get a flu shot from your healthcare provider or just about any pharmacy. Some public providers offer the flu vaccine for free. Visit the [VDH website](https://vdh.virginia.gov/) to find out where you can get your flu shot. You can also visit <http://flushot.healthmap.org/> for flu shot clinics near you.

UPCOMING FLU VACCINE CLINICS AT THE LOCAL HEALTH DEPARTMENT!

Call your local health department to schedule an appointment!

Harrisonburg Rockingham Health Department: Call 540-574-5101

Flu vaccine clinics every Friday, 9:00am-11:00am

Waynesboro Augusta Health Department: Call 540-949-0137

Flu vaccine clinics every Wednesday, 2:00pm-4:00pm

Lexington Rockbridge Health Department: Call 540-463-3185

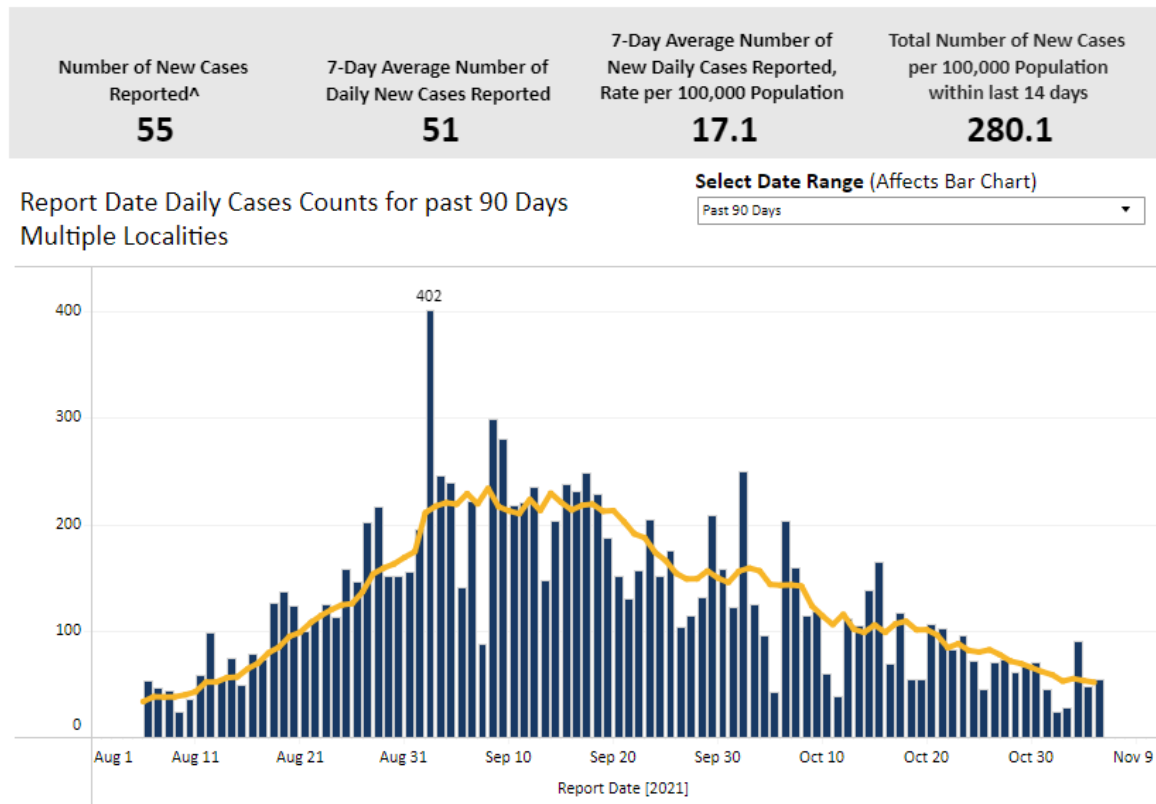

Flu vaccine clinics every Monday, 1:00pm-4:00pm

You may receive your COVID-19 shot or booster at the same time as your flu shot!

CENTRAL SHENANDOAH HEALTH DISTRICT
COVID-19 DATA

Case Trends

The chart below illustrates the rate of cases throughout the Central Shenandoah Health District over the last 90 days.

Case Data Breakdown

As reported to VDH, by date of lab report. May differ from other sources, due to reporting lags. Negative numbers indicate data corrections, since March 2020. More data can be found [here](#).

	7-Day Average Number of Daily New Cases Reported	Total Cases	Total Hospitalizations	Total Deaths
Rockingham County	12	9,499	593	158
Harrisonburg City	6	8,296	262	107
Augusta County	13	10,262	304	131
Staunton City	4	3,429	99	81
Waynesboro City	6	3,679	99	47
Rockbridge County	5	2,160	76	59
Lexington City	2	1,588	36	36
Buena Vista City	3	1,339	31	27
Bath County	0	491	20	15
Highland County	0	182	2	4
Totals:	51	40,925	1522	665

Vaccination Rates

You are considered to be fully vaccinated 2 weeks after your second dose in a 2-dose series or 2 weeks after a single-dose vaccine.

In the Central Shenandoah Health District, vaccination percentages are broken down by locality and city below:

	Percentage of Population receiving one dose	Percentage of Population fully vaccinated	Percentage of Adults receiving one dose	Percentage of Adults fully vaccinated
Rockingham County	53.0	49.2	63.6	59.2
Harrisonburg City	52.8	48.2	59.2	54.1
Augusta County	55.9	52.5	65.1	61.2
Staunton City	65.1	59.9	75.8	70.0
Waynesboro City	61.1	56.2	74.9	69.2
Rockbridge County	57.3	53.2	65.7	61.2
Lexington City	54.2	50.0	59.1	54.4
Buena Vista City	55.7	50.5	66.3	60.4
Bath County	55.4	49.6	63.4	56.8
Highland County	56.7	53.9	64.2	61.2
Totals:	56.7	52.3	65.7	60.8

Dashboard

COVID-19 MITIGATION

Vaccination is our number one line of defense in defeating COVID-19. All COVID-19 vaccines approved and authorized in the United States are safe, effective and free. **The Central Shenandoah Health District encourages everyone who is eligible to receive the COVID-19 vaccine do so as soon as possible!**

In addition to vaccination, layering other public health mitigation measures can keep you and your family safe! This can include:

- **Masking up in areas of high transmission**, even if you have already been vaccinated. Currently, the majority of localities throughout the state are in a state of substantial to high transmission. Read more about transmission [here](#).
- **Practice physical distancing (also known as social distancing)**, and stay 6 feet apart from others. It is a way to slow the spread of COVID-19 by reducing close contact between people. The closer you are to other people who are not fully vaccinated and the more time you spend with those people, the higher the risk of COVID-19 spread.
- **Wash your hands often with soap and water for at least 20 seconds.** If soap and water are not available, use an alcohol-based hand sanitizer with at least 60% alcohol, rubbing your hands together for at least 30 seconds until they are dry.

Practices

COVID-19 VACCINE CLINICS

Click the button below for a full list of COVID-19 vaccine clinics happening in the Central Shenandoah Health District.

The clinics are separated by region. Please note that the Pfizer vaccine is approved for ages 12+ and the Moderna and Johnson & Johnson vaccines are approved for ages 18+. These schedules are subject to change

You can register for these clinics at vase.vdh.virginia.gov.

**View the COVID-19 Community
Calendars**

We also continue to partner with organizations throughout the district to provide access to COVID-19 vaccines. Visit the websites below for COVID-19 vaccine clinics operated by our community partners!
